

# VaporStar

## Vapor Tight Enclosed LED Light

### Key Features

- Enclosed and gasketed luminaire that utilizes highly-efficient LED technology.
- Gasket and cam latches seal the enclosure, making it weather resistant and corrosion free for wet locations.
- Knockouts and end plugs provided for easy wiring access in the field.

### Electrical

- 120-277VAC 50/60Hz input.
- 0-10V dimming standard.
- Power factor: >0.90 and THD <20%.
- Operating temperature: -40°C to 40°C (-40°F to 104°F).

### Mounting

- Ready to be surface mounted, pendant mounted or safety chain hung.
- Ideal mounting height of 12 to 25 feet.

### Construction

- Gray housing and opal lens is impact-resistant polycarbonate for durability and reliability.
- (8) Stainless steel cam latches standard.
- IP65 rated enclosure prevents intrusion from environmental elements that could degrade performance.

### Optics

- Industry-leading LEDs with 5000K CCT (minimum 80 CRI).
- Lumen Maintenance: >161,000 hours (L70).<sup>1</sup>

### Warranty

- Backed by US LED's Five-Year Warranty.

### Product Performance Summary

Lumen Output	Up to 5,200 lumens
Efficacy	Up to 130 LPW
CRI	≥ 80 CRI
Available CCT	5000K
Warranty	Five-Year Warranty

### Product Overview

The VaporStar is a low-profile, linear LED luminaire that's designed for industrial use. Engineered for durability and reliability in wet locations, the VaporStar features an impact-resistant polycarbonate housing and lens. In addition, this enclosed and gasketed linear luminaire is designed to be weather resistant, corrosion-free, and easy to clean or service. As a result, the VaporStar is the ideal choice for industrial or manufacturing areas, refrigeration, parking garages, and other commercial and industrial applications.

### Product Applications

- Parking Garages
- Refrigeration/Freezers
- Manufacturing/Industrial
- Retail Centers
- Educational Facilities
- Business Campuses

### Product Certifications

- UL Listed
- CSA Listed
- NSF Certified
- Suitable for Wet Locations
- IP65 Rated Enclosure
- RoHS Compliant

### Ordering Information

Example: VTF-1-4-UNVL-40-2-50

VTF1

1. Product 'Lifetimes' refer only to the LED light engine, not the power source, and are based on the Illuminating Engineering Society's TM21 Projected Lumen Maintenance methodology at a 25° C / 77° F ambient temperature. The lifetimes are solely meant to be a guide for expected LED degradation and not a warranty or predictive of their actual life, which can be affected by ambient temperatures and other factors.
