Since 2001, US LED has been a full-service LED lighting and controls provider, serving as a single point of contact for all projects. With decades of expertise, US LED consistently offers ultra-long-life lighting that achieves or surpasses 200,000-hour L70 lifetimes, supported by its Ten-Year Warranty. Moreover, US LED provides Operational Efficiency Solutions (OES) to help organizations efficiently manage energy and gain complete visibility. US LED simplifies the challenge of complex rollouts by leveraging end-to-end program experience through its dedicated nationwide turnkey installation and project management teams.

OUTDOOR LIGHTING SOLUTIONS

Does your lighting still leave you feeling in the dark? With US LED, you can be confident that your warehouse, distribution center, or manufacturing facility will never feel that way again.

LED lighting provides high-quality illumination that significantly improves visibility across your property, particularly in parking lots, pedestrian walkways, and building exteriors. Well-lit surroundings reduce the risk of accidents and deter criminal activity, ensuring the safety and security of employees and visitors.

Right Choice Series
LED Area/Site Light
(RCALR-2)
15,235 - 77,639 Lumens

Classic LED Wall Pack
(ULWL1)
3,994 - 19,664 Lumens

QubePAK®4
Architectural LED
Wall Pack (WPR3)
4,701 - 14,007 Lumens

QubePark Select
LED Parking Garage
Canopy (QPS1)
3,348 - 12,241 Lumens

INDOOR LIGHTING SOLUTIONS

The vast spaces in warehouses and distribution centers present unique operational challenges, particularly lighting. US LED offers indoor lighting solutions to meet demanding requirements and deliver long-term performance.

Upgrading your warehouse and offices with LED lighting optimizes it for maximum efficiency and cost savings. Ultra-long-life solutions significantly reduce energy consumption and eliminate maintenance over time. Uniform illumination throughout your facility enhances safety and productivity, eliminating dark spots and improving visibility.
